

ORNL – Recent work

- Improving abilities of Run and TimeSeriesProperty to more easily return time average stddev
- FilterEvents now updates "duration" property
- FitPeaks supports specifying some of peak function parameters and fitting ("Mixing" for pseudo-Voigt)

ORNL – Near term plan

- Moving mantid dependent code from python 2 to 3
- Preparation work for HDF5 only re-write of LoadEventNexus / LoadNexusLogs
- Arbitrary line cuts in slice viewer
